

Prescriptions are available from this practice

You may obtain relevant veterinary medicinal products from your veterinary surgeon or ask for a prescription and obtain these medicines from another veterinary surgeon or a pharmacy.

- Your veterinary surgeon may prescribe relevant veterinary medicinal products only following a clinical assessment of a pet under their care.
- A prescription may not be appropriate if your pet is an in-patient or immediate treatment is necessary.
- You will be informed, on request, of the price of any medicine that may be prescribed for your pet.
- The general policy of this practice is to re-assess an animal requiring repeat prescriptions for/supplies of relevant veterinary medicinal products at least **every 6 months**, but this may vary with individual circumstances.
The standard charge for a re-examination is £140.

Further information on the prices of medicines is available on request.
